## LIFE

on the campus runs all emotional gauntlet . . . a Pandora's box of rich times we'll never forget and low times that are soon wiped away with the fellowship of good friends . . . we learn through it all . . .

## IDENTITY

is a life long search through the self . . . through various channels as symbols, friends, and the experiences which the environment allows, the identity of one may grow . . . spirit and mind acquire new depth.

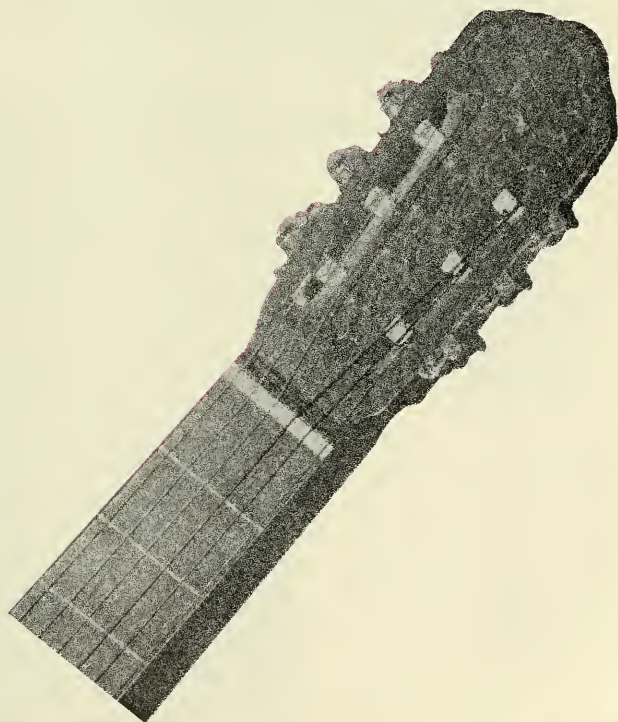

## ENTERTAINMENT

and the enjoyment of other's talents are synonymous ... quiet and yet involved appreciation of a meaningful performance ... a song which reminds you of a special time ... a dance that mesmerizes you ...

of course, 'never ends' . . . places where we learn and methods of learning may change, but the process of learning in and of itself never stops . . . the unification of different types of knowledge always proceeds.

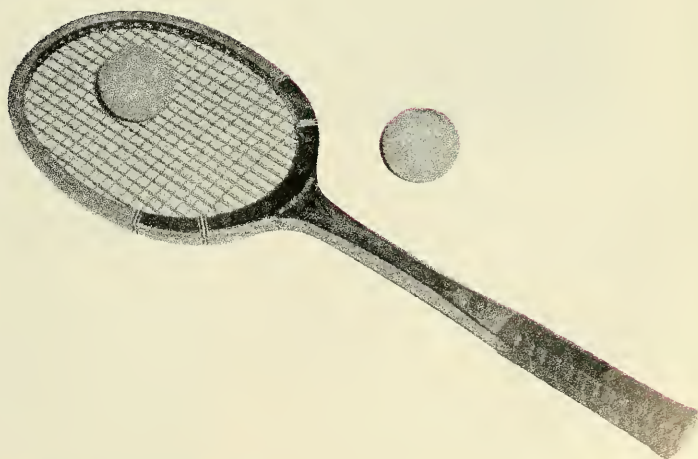

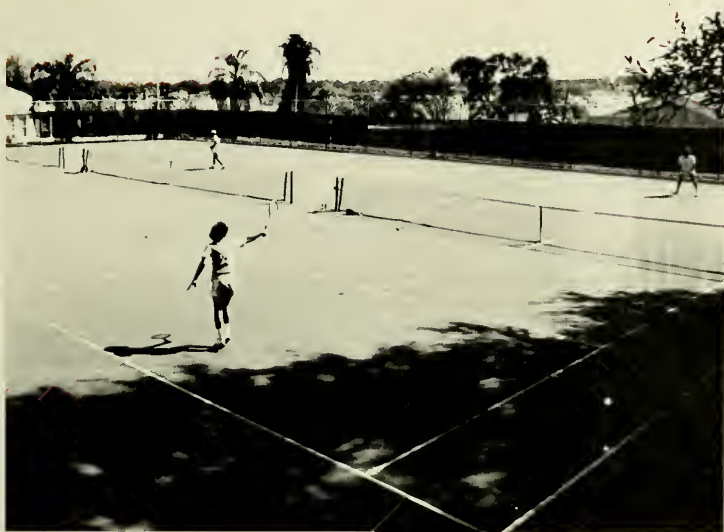

## LEARNING

## RECREATION

brings that special relief and release ... indulging yourself in your favorite sport ... pure physical release after a mind-boggling day of academic pressures ...

## CULTURE

brings not only expressions of life, but is life itself . . . a famous figure brought to life . . . music capturing a rare feeling . . . a painting which almost refuses to let one leave its presence.

**RELAXING** is that quiet moment which finally arrives after a tough day . . . simply sitting in silent meditation . . . listening to your favorite music . . . writing that long overdue letter to home . . . spending time with special friends . . .

## BUILDING

is more than mere structures . . . it  
is the accumulation of knowledge  
through the learning process . . .  
lasting friendships . . . preparing  
for a future.

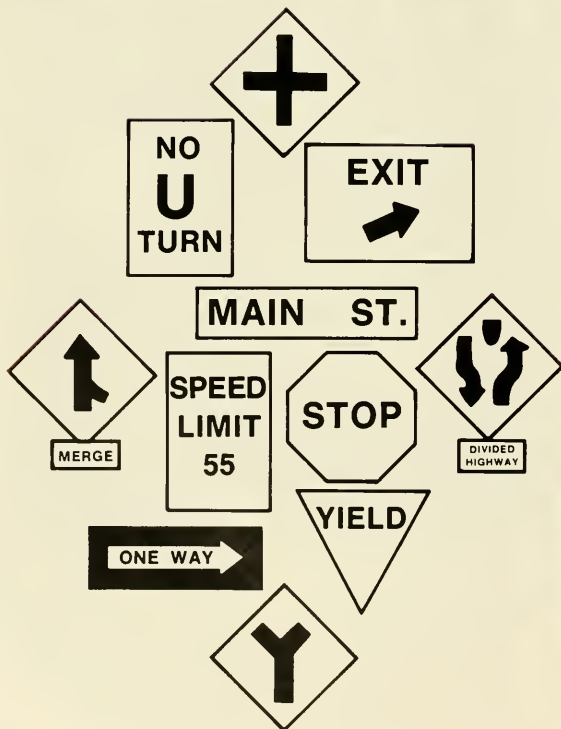

## STUDENT LIFE

Main Street is omni-directional and heavily trafficked. It is so named because around it thrives an entire campus community. Don't bother asking directions, you're already there. Student Life is the Main Street of FSC

College is . . . catching rays, a call from home, 4:30 at the cafe, good times, waiting for the weekend, lasting friendships.

Ideas for those who  
want to avoid studying;  
read the comics, write  
to your hometown sweetie,  
do your wash or just  
sit around and relax

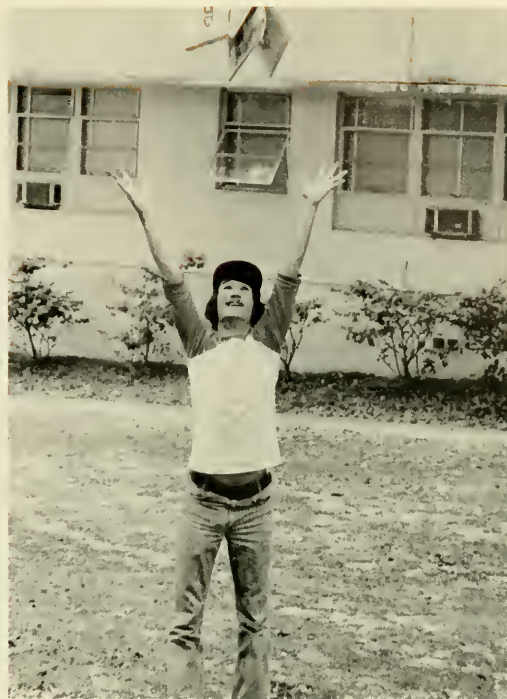

Yes—there is life after classes—whether rappelling; waiting for the cafe to open or watching the soccer game.

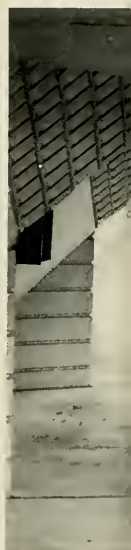

Who says school isn't fun? Get on Lake Hollingsworth with skis, canoes or a sailboat. Try a friendly game of football or just plain goofing off!

School Daze—good friends, term papers,  
boring and fun classes, but . . .

always thinking about 23-cent  
Thursdays and Friday night movies.

THE TALENT SHOW — (below) The first, second and third place winners: Marilyn Whitehead, Gregg Gregory and Mary Watson with her partner Bob Selman. (right) The stage is set for a convocation presentation of songs written by Tom Argersinger.

The Talent show was sponsored by the Student Union Board. (left) Gregg sang a medley of Broadway tunes to win second place.

(below) Marilyn, the first place winner. She sang a medley of summer songs. (above) Mary and Bob, third place did a comedy and song routine.

Due to unforeseen occurrences, which often develop in the course of preparing any large publication such as the Interlachen for printing, some class pictures are out of alphabetical order. We regret this lack of continuity, but we assure our readers that every effort has now been made by the staff to portray each member of the student body. If, however, some student's picture was left out of this issue due to this mechanical problem we sincerely extend our apologies.

## IN MEMORY . . .

We understand death for the first time when it puts its hand on someone we know. What was just an intellectual acknowledgement of the fact of death becomes a real hurt, and grief, and sorrow that does not go away simply thinking of something else. Jim Tinthoff was killed in a tragic accident this year, and his family and friends know a loss that is real. All of us are reminded of how precious, and fleeting, life can be.

The loss is real. The grief is real. The sorrow is real. What can Christian faith say in the face of tragedy like Jim's death? The comfort of faith came not in avoiding the pain and sorrow we feel, not in going around in grief, but in going through grief. As Christians we know that the shadows are real, but we know also that shadows are finally but proof of the light. "Though I walk through the valley of the shadow of death . . . Thou art with me." The Christian trust in resurrection came only as it passed through the death of Good Friday. God has been there. God cares. God loves. He hurts when we hurt. He cries when we cry. And with a God like that, we can continue to trust, we can have faith, we can go on affirming life in the midst of death.

We have a God who answers our questions of "Why?," not with arguments, but with His sustaining presence and His healing love.

So we can move through the loss of death to the truth of a love made real in relationship with God, and with others — relationships made richer for having known Jim Tinthoff. Even in death, Paul's words ring clear:

James L. Tinthoff  
1959-1979

"For I am sure that neither death nor life . . . Nor anything else in all creation will be able to separate us from the love of God in Christ Jesus our Lord."

As Christians we affirm that not as ones who have never known pain and sorrow and the feeling of separation, but as those who know the reality of death. And yet in the end, God's love prevails. Love is the victor. Death is not the end. The end is life, His life, and our lives through Him, in Him. Life has greater depths of beauty, mystery and Benediction than the wildest visionary ever dared to dream.

Thanks be to God, for Jim Tinthoff, for life, and for a risen Lord.

**Cancer is often curable.  
The fear of cancer  
is often fatal.**

If you're afraid of cancer... you're not alone. But some people are so afraid that they won't go to the doctor when they suspect something's wrong.

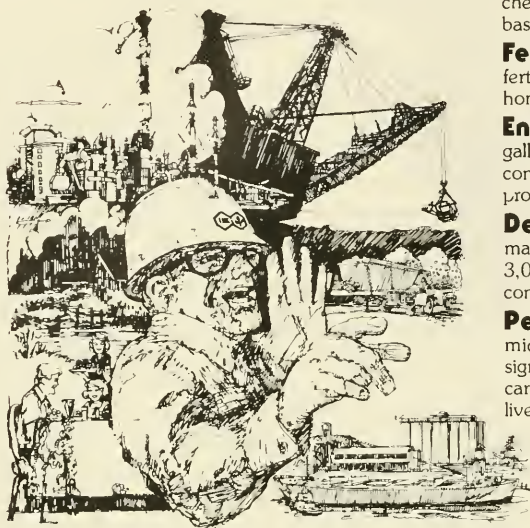

They're afraid the doctor might "find something." This kind of fear can prevent them from discovering cancer in the early stages when it is most often curable.

These people run the risk of letting cancer scare them to death.

## IMC/Florida is minerals, chemicals, environment, people.

**Minerals.** IMC produces more phosphate than any other company in the world. Annual capacity of 12.5 million tons is 25 percent of U.S., and 10 percent of world output. IMC's Port Sutton terminal on Tampa Bay can export five million tons annually to major world markets.

**Chemicals.** New Wales Chemicals, Inc., a subsidiary, operates the world's largest concentrated phosphate chemicals fertilizer plant. It also produces phosphate-based animal feed ingredients.

**Fertilizers.** Three plants offer a complete line of fertilizers for mid-Florida ranches, farms and groves, homes and gardens.

**Environment.** IMC recharges and recycles millions of gallons of water per day. New disciplines augment air quality controls, and expedite recovery of retaining ponds in a program that annually reclaims thousands of mined-out acres.

**Development.** IMC Development Corporation, a land management subsidiary, has 35,000 acres in ranchland, 3,000 acres in citrus, plus major residential and commercial properties.

**People.** More than 2,500 IMC employees contribute to mid-Florida's economy. Their talents and innovative efforts signal IMC's environmental/operational progress. They care about mid-Florida, just as you do. Not just *how* it lives, but *how well* it lives, too.

# **NO U TURN**
